December 1, 12th Year Siva Kalpa

## Happy birthday Baby Jesus

"Always stick to Truth."

Father

From The Bible: Christ became a human being and lived here among us on earth and was full of loving forgiveness and truth. And some of us have seen his glory...For Moses gave us only the Law with its rigid demands and merciless justice, while Jesus Christ brought us loving forgiveness...He is the companion of the Father and has told us all about Him.

REPORT FROM HEADQUARTERS:

John I

Around the circle never described...I address you from my newest yet first space of 59 Scott, above our eternal office. Carolyn and I traded apartments on Nov. 15 — once again a rebalancing of energy so necessary to our evolution. We are finally feeling the chill of winter which surprisingly has brought a round of weddings beginning with Don and Sheila's on Oct. 23, followed by Vince and Mala's lively yet traditional ceremony on Nov. 11, also in Murphy Garden. They were united by Father under the archway, a Jewish custom symbolizing the protection of a roof above your head as long as you are wed, followed by John playing "Hava Nagila" on the bagpipes. It is beginning to rain now — every wedding seems to initiate a downpour, a sign and blessing of fertility I'm told. We've also had a shower of babies beginning with Eamon Sharkey on Visnu's birthday, Oct. 31; Shyla Penn on Nov. 2; Arjuna Sattvika, born to Kalia and Jeff Imel on Nov. 6 and Crystal Devali Tucker (number 5!) on Nov. 12. Anita and Gordon are expecting a baby in the spring. So is Shotsy. Father has made two trips to Los Angeles this month, the second one including San Diego where he was hosted by Carolyn Slade's mom, a truly beautiful and conscious lady. The feeling in the village is mellow, with an underlying bustle of ideas and activity which spring will bring to fruition. Writing is certainly a productive and enjoyable way to spend the winter — the letters have been pouring in. What a reassurance of Divine expression!

Love and hugs to all, Sarada

### Messages from the Obsolete (M.O.)

Eccentric, 91 year old, Irish harpist, John PhilBert was revived from senility and schizophrenia to sing with gusto and spontaneity of three young men. Traditional favorites of the Irish Revelation of America, John PhilBert sings songs I almost remember. Ph.D.

Immortal Medicine

Disease is not contradiction with God, God Forbid. Infrequently does it begin in the mind but usually in our vital body or center of consciousness.

We are learning at long last to control our emotions and to say what we feel, which is God. All disease is the result of Inhibited Soul life which is seeking expression through our charming personalities which are all but perfected. It is but a distorted reflection of divine possibilities. The thwarted Soul, your Self, God, Father seeking full expression of some divine characteristic or inner spiritual reality, produces within the substance of one of its seven bodies or centers of consciousness, a point of friction. Upon this the eyes of the personality or ego (mind, heart and body) are focussed and this leads to disease. The art of the healer is concerned with the lifting of the downward focussed eyes unto the Self, the true Healer within the form. The spiritual or third eye then directs the healing force and all is well. We are thereby purged of the resistance and/or congestion that is prohibiting the reflection of our true Self. What's wrong with it? God is not through with us yet. Don't fight it but deal with it to the extent that our present knowledge permits and then forget it--letting nature take its course. Self pity is the worst enemy and is to be ignored by all. Disease, both physical and psychological, has its roots in the good, the beautiful and the true. When the life and energy of God flows unimpeded, with right direction and control to its manifestation on Earth as in Heaven, then the form responds and ill health disappears. Love heals all and together we must heal each other, then our parents and then the world.

Dennis Myers, M.D.

WHOLISTIC MEDICINE SEMINAR

Last Saturday, (November 12), Dr. Harvey Rose held the first in a year long series of monthly seminars on wholistic medicine. The focus is on keeping the body well, rather than treating it once it has manifested disease. The question of health is also considered as a balanced relationship between the mental, vital and physical planes. The classes are held the second Saturday of each month, rotating among the different participants' houses. The next one will be held on Saturday, December 10 at 1161 Hayes St., #2.

Jesus Was A Jew

If Christmas isn't exactly a Jewish Holiday then it ought to be. Jews should join with others in celebrating the birth of the greatest Jew that ever lived.

All we need for Christmas or a celebration is Jesus. He is the world's oldest living Jew (since he is still alive).

People from every race sing praise to the God of Israel because of Jesus. They read the Jewish Bible; and our ancestors like Abraham, Moses, Jacob, David, and Elijah are their heroes because of Jesus.

All the writers of the New Testament were Jews. All of the teachings of Jesus like Love, Peace, Sharing, and Joyful Worship are Jewish Ideas. Giving presents is a Jewish thing to do. God gave the world the very best Christmas present, his own son. What could be a nicer present than to give one's true self to those one loves. That's what God did in Jesus.

Though we don't know exactly what day he was born, Dec. 25 is as nice as any day and every day to celebrate his birth.

If you knew what we know--that Jesus really is the Messiah - then you would agree that Christmas should be a Jewish Holiday too.

Moishe Rosen, San Rafael, Ca.

Thanksgiving Wedding \* Anna Lynn Dayton

Dennis Kalfas and Sandy Weinstein, who has been named Shyamali by Dida, were married by Father at St. John of God's church on Nov. 25. Sandy's parents, grandmother, aunt and younger brother flew in from Alabama for the occasion. Two more aunts came up from L.A. Dennis Kalfas' sister Lola sang beautifully at the ceremony. His other sister, Shirley was there and her handsome young son Brian was the ring bearer. Don and Sheila McCoy were best man and matron of honor. The little girls from the family who attend Shyamali's belly dancing class all enjoyed being flower girls. A splendid reception followed where there was even included a special buffet table just for children. Sandy's family sponsored the reception in grand Southern style and were kind to put up with customs which were displayed which may be typical of California but are unheard of in Alabama. A huge orange moon surrounded by rings shone above. Thankyou for a beautiful celebration.

Erna, Iceland

Thoughts, Thoughts -, I have missed you all - and have longed for the feeling of observing friendly smiles and feeling overwhelm a community. It seems as love is prevailing! Complexity is what I face - And you give me the aspiration, courage and will to overcome. We all will see. - Thank you so much

The light is with a new soul  
Which is everyone and all.  
Destined for better, brighter  
Enlighten further what you have,  
What you are, Awaken your longing,  
For live, enrich and let it flow .

Dear President Carter,

Regarding your energy policy, it's heart-breaking to know that your House and Senate can not agree with you. I feel an urge to lend my support to your energy program. God blessed us with the sun, wind, and seas, with their tidal energy. How is it that we can deny these simple tools?

It would make sense to me if the Defense Budget was used to explore all ways to utilize natural forces. Scientists are just as capable of utilizing natural and safe forces as they are unnatural and deadly forces. We have two choices, we can preserve what God gave us or we can destroy it. Billions of dollars are spent on space exploration and nuclear proliferation while half the earth's population goes hungry.

Please direct our military forces toward our greatest enemies, those who would slowly destroy our planet and ignore human suffering. Military forces should be used to repair the damage that has already been done and to save the people under the grim shadow of physical deprivation.

In your service, Nancy Collins

Dear President Carter,

I saw you on television appealing to your people for support of your energy program. You have mine. I am a welfare mother. I am poor but happy. I love America and am grateful for the help the government has given me and my children. I have a car but I don't care if you want to charge \$10 a gallon for gasoline if you need to keep our country strong. I'm looking forward to the day when I can trade my gas-eating car for one which runs on solar cells or manure.

I hate to read all the criticism about you in the news. I know you are doing the best you can and that you have the best people you can find to advise you.

When are people going to start supporting instead of undermining each other. Creative criticism and advice are one thing; I'm sure you're receptive to that, but nitpicking and insults we can do without. Please Mr. Carter, don't let them build any more nuclear power plants. I know electricity is a wonderful servant but I'll gladly turn off most of my lights and do without all sorts of electrical gadgets to keep from leaving my great, great, great, great grandchildren a terrible legacy of nuclear waste to care for eternally.

Surely with the scientific genius of this country we can come up with some other ways to produce electricity without using nuclear power. In San Francisco this summer we had a drought and water shortage. The first month the people were asked to cut back on their water consumption. We used so little that the next month the water company asked us to use more, they were losing money, not selling the water they DID have available.

I know we can conserve electricity in the same way. It just takes education. The trouble is, a lot of greedy people are after all that government money available for building nuclear power plants. Please redirect that greed into rewards for research for clean ways to produce electricity and rewards for saving electricity.

Since I am unemployed and the government is supporting me I have free time which I devote entirely to community service. Although I'm not adding their signatures to this letter, I can guarantee you the total agreement of at least 200 people in my immediate neighborhood. We love you J.C., don't let your critics discourage you.

In service to God, my country, my world and my president, I am yours sincerely  
Anna Lynn Dayton

#### New San Francisco Supervisors elected Nov. 8

The Foundation of Revelation supported Terrance Hallinan for Supervisor of our district in the recent elections. We felt most closely bound to him because of his long standing ties and service in the Haight Ashbury district, birthplace of the "hippy" movement. He was also the only candidate of the seventeen competing for the position who has a wife and children. But whether by mandate or by vote Time selects its leaders and Harvey Milk, a member of D.E.V.A. and resident of Castro Valley, won the position of Supervisor. Terrance took second place. Harvey Milk is a truly dedicated, hard working, warm hearted, and fearless man. He does not hide the fact that he is "gay". He is a very dramatic character which is a personality type we have all come to know and love. We offer him our congratulations and support in what we hope will be an active and harmonious relationship based on our shared conviction that the people of San Francisco must be heard at City Hall and that the neighborhood groups are a perfect channel for that communication.

#### Eleven Years Soaring

From that time in New Orleans when excitedly I tried to enlist in national service, desiring to be a warrior bold, I was told I was too much religious to be a marine. Then time's scheme swept me into REAL battle.

A hippie soldier put a tiny orange tablet on my tongue and suddenly the world ripped asunder and floated me away with heavenly sounds, and rounds of divine ammunition poured through my new weaponry...

Eleven years from 1966 God riding me like a stick horse using my equipment at will...

seeing, tasting, feeling,  
always just born, boiling my brain  
with vision-fires of high light temperature  
leaving fertile ground for self.

E.W. Miller Feb.17th 11th year Siva Kalpa

LETTERS TO THE EDITOR:

Dearest Family,  
I'm delighted with the news letter. It's just what I've been waiting for. I think a lot of you and it's hard for any individual to fill us in on all the activity there. I've asked about Peter and Ruma's baby, and finally read it in the news letter.

Our home here with Thad and Nancy and four and a half year old Noah is great for this time. We're 17 miles south of Santa Fe and there's always something to do in this little desert town. Antrak comes into Lamy and not into Santa Fe. So far it feels good to be in the middle of the land. Life is more expressive here spiritually and physically. I can talk more freely of you and that feels good. I love you all and any information on you and Father is appreciated. Lots of love and aloha,

Guy, Karen and Adam Goodness, New Mexico

Sebastopol, Ca.

Please find enclosed the Ranch's subscription for The Light Is Yours. What a great idea! Such a feeling of worldwide unity every time we read a new edition. The ranch and surrounding family houses are at the end of harvest time, entering the cozy winter months. The grapes have been picked and pressed. It was a small harvest but no slight in quality. Year 12 will be a great year.

The Blums, Sharkeys, Bobby Weidlich, Robert and Allyce Dowling live on the ranch now. The Capparos found their new home just the other side of Occidental. We blissfully announce the newest Ranch addition in form, Eamon Carl Sharkey, born Oct. 31. Two days later Candi and Bill Penn welcomed their new daughter Shyla. Her arrival witnessed the end of Bill's long standing court case - charges dropped.

Becky and John Barber were married. Ajna was best man and Becky's family came from L.A. to attend.

The Gods of the country family have been spending long, fun hours picking and juicing apples. The goddesses note this feels good, the guys working and creating together, devising new means to dhuni together and make money. From everyone here, the Harras, Barbers, Vodas, Sharkeys, Blums, Capparos and Penns, all our love to our family and a hearty Bom Shankar Bholenath!

Susan Sharkey

Congratulations on The Light Is Yours, the new and continuing Siva Kalpa News letter!

I no longer live in San Francisco. My husband and I live in Dunlap, Ca. about 40 miles south of Fresno, in the mountains. We're happily in business for ourselves doing sign work, calligraphy and carpentry out of our 8' x 16' travel trailer. Though physically distant, I want to remain in touch and up-to-date on Family enterprises and events. Your Newsletter will bridge the gap. I'm happy for your creation!

Kathy Knight

P.S. It is thanks to Richard Fiorentino that I am subscribing. He sent his light to me! B.S.B.

The European Family      \*\*      John Morton

Simon, Lopa, Val and I arrived at Dolly and Peter's in Belgium. We were beautifully received by Dolly and Peter, who want us to stay longer. Corinne arrived yesterday. I will be happy to visit the village in Southern France the family wants to get. Corinne worked hard to get up the enthusiasm for it and it looks like she is succeeding. The European family seems like these little enclaves scattered around the dusty old cities of Europe; and what would really bring the whole scene together for them would be a great project like this to work on. The best times for Europe have always been the Mahamilanas in the French countryside. This could be a permanent one. San Francisco has its village, Europe really needs something like it and the cities are not yet the place to bring it off. If we can get this village going lots of Americans and Australians can enjoy Europe and work for the family here at the same time. I know a lot of people would be happy to get into this kind of change. I love everyone at home and am looking forward to coming back with good news.

Fondation de la Revelation - France

This summer a very old imagination of the French family was revived and brought to life of creating a village, where we would all live and work together to create a powerful center of conscious forms. Kamala et all started hunting and found a suitable piece of property in the Rouerque region in South-west France.

There are 8 houses, 3 of them presently inhabitable, electricity, running water, a 9 meter wide river along one mile of the property, one third of the land is oak and chestnut trees, the rest rolling hills and meadows. We need support from America for this village; the more everyone talks about it there the better. We must develop Europe.  
Corinne

Letter from England      \*\*      Rich Meyers

Oct. 25 'Ello, B.S.B. from Wales: Hari -Max-Adrian & I are visiting some friends in a village called Nandrinio, Wales. It's a wee way from Bwlchnewyddystalyfera across the Vale from Pennryddgrug. Well-known to any elf or troll in Wales. Today we walked from Welshpool to a castle, the one-time residence of Clive of India, atop a mushroom-covered hill. It's the season. We are vacating MacFarlane for a week to accommodate the work that has to be done on the house. We are prepared for Lopa and Ambassador Morton. Good news of Co-op and green cards came from Hope. Stephanie wrote about the Carmelita school and S.K. News. Sarada told of the green-ing of Murphy and we just heard the news of the wedding-to-be of Sheila and her Emperor. Winter is officially upon us but the signs are quite mellow.

Love to ye all, Rich
